

PRINTING LABELS

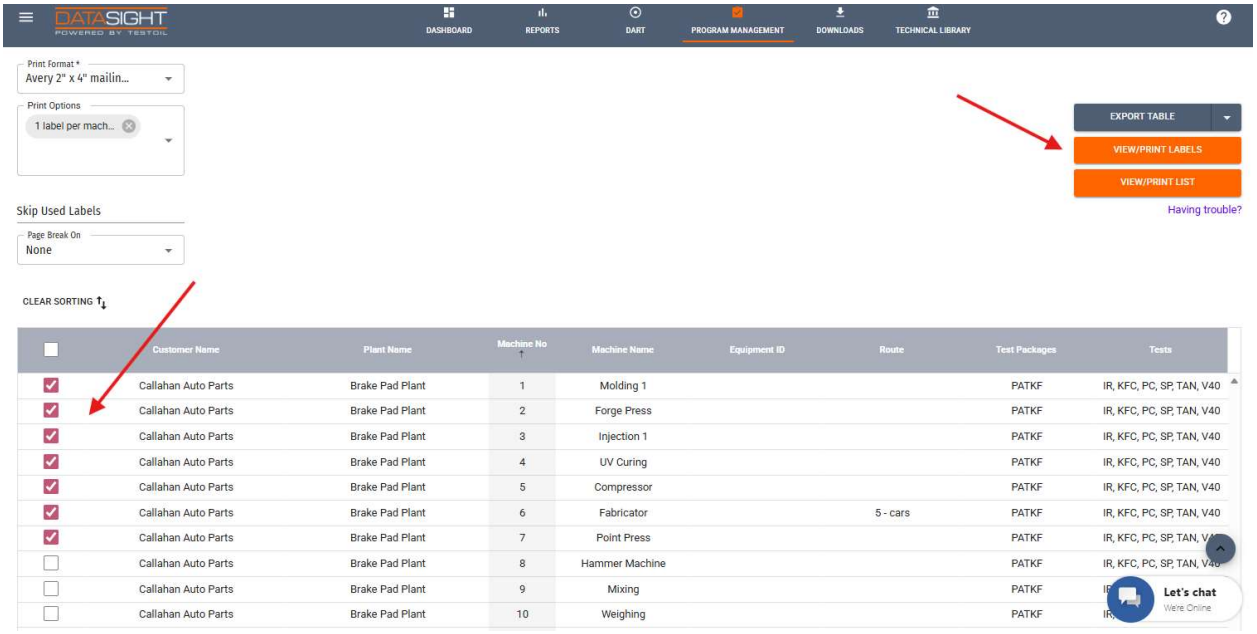

- In Datasight, select **Program Management** from the top of the screen and then **Standard Sample Labels**.

- Next, (if necessary) click the gray **Search and Filter** bar across the top to drop down your search options. Select the desired **Plant** and click **Search**.

- Select the machines you want to print labels for by clicking the check box on the left, then choose **View/Print Labels** - This will open the PDF in a new window, make sure the pop up isn't blocked.

- In the new window click the **download icon** and select **Acrobat (PDF) File –** please wait, it can take a moment to download.
